Fusion mobile app

The Fusion mobile app lets pupils order and pay for food in advance using their mobile phones - no more queuing and looking for change. The app is linked to your ParentPay account so there's no need to look for money each morning.

This means that schools can offer a truly contactless service and can control traffic flow with designated pre-order pick up points.

- The app allows you to
- check your balance
 - order food in advance from the new Grab and Go menu
 - choose when you are ordering for
 - choose a collection point
 - view their order

For pupils starting in August a new activation letter will be sent to you and to your child's glow email account with the unique on boarding code. All you need to do is download the fusion mobile app to their phone, register for an account and pop in their own on boarding code. Your ParentPay account just needs to be credited and they are ready to place an order.

For any existing pupils who don't have the code, or have lost it, please contact the school office or speak to the Cook in Charge who can check the system for your unique code. You can download the Fusion app on the Apple App Store, get it on Google Play or by searching 'Fusion Online' on your own store.
